

PISP API v2.0

Payment Initiated Service Providers
Third Party Payments

Questions?

What is PISP?

Does Mojaloop support the PISP use case?

Why is Mojaloop's PISP implementation different?

What is the status of PISP v 2.0

Proposed change request that has been reviewed by the PISP special interest group, and submitted for discussion.

Next → being reviewed by the change control board for approval.
This is the process to finalise the technical documents for the API

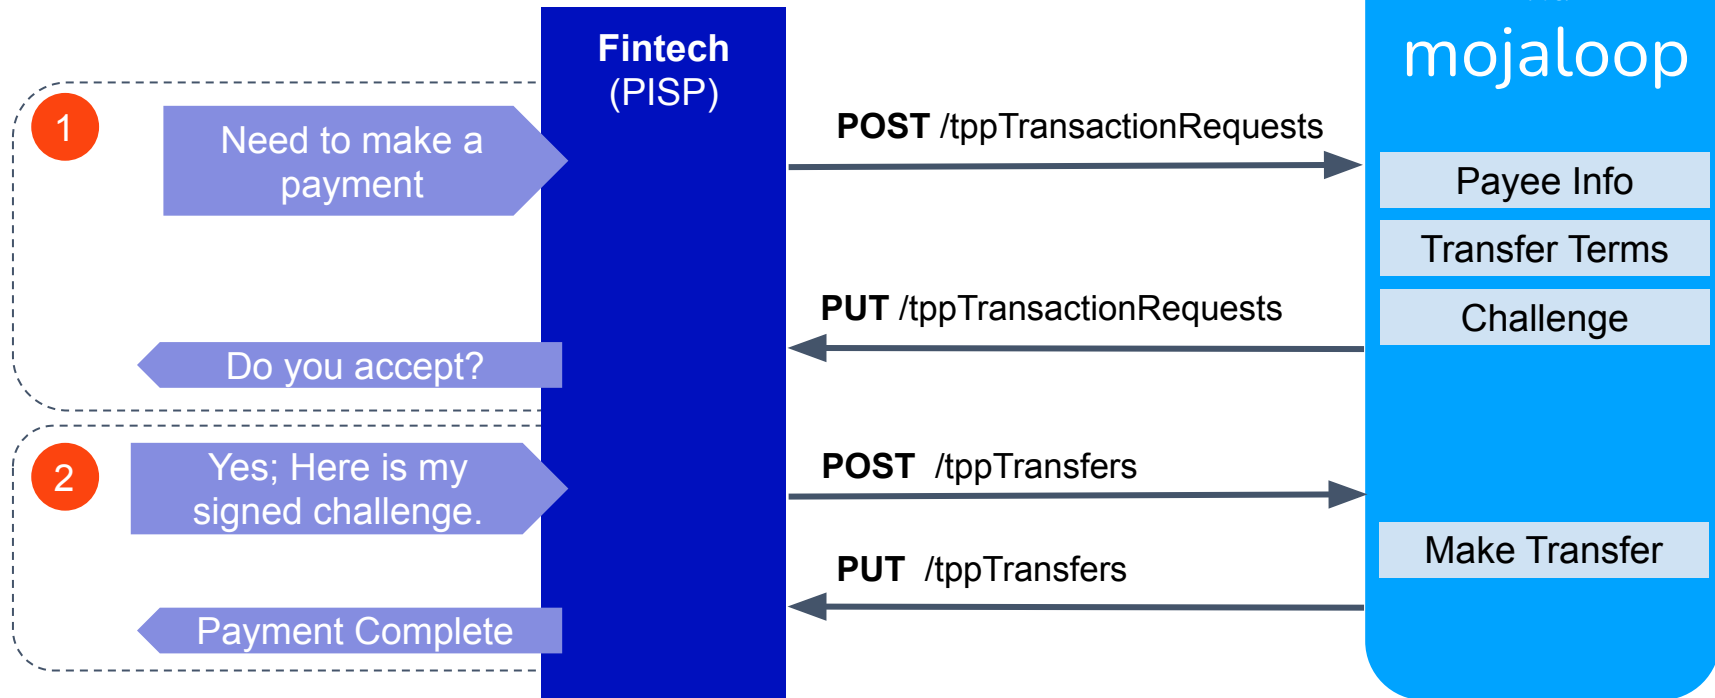

Almost there.

What is new in PISP 2.0?

1. Simpler Integration for FinTechs
 - Refactored Payer Initiated use case
2. Payer can approve payments on their own device
 - PISP payment acceptance for Payee Initiated use case
3. FinTechs Integrations can request Payments
 - PISP request to pay
4. Account discovery authorisation on Account Linking
5. Revoking consent

Simpler Integration for FinTechs

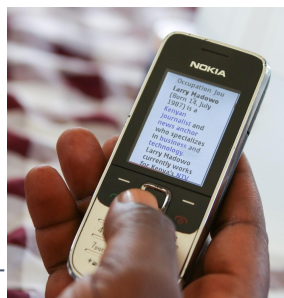

- Refactored Payer Initiated

Payer can approve payments on their own device

- PISP payment acceptance to support request to pay

**Fintech
(PISP)**

1

Do you accept?

Yes; Here is my
signed challenge.

Doesn't have a
mobile application
for approving
payments

**Blue Bank
via
mojaloop**

POST
