foundation

DFSP 209 - DFSP Technical Operations

This course builds on DFSP 101 to provide practical steps for performing Technical Operations support functions.

The course is best aimed at those working within DFSPs or those who may be advocating for DFSPs to join a Mojaloop system (such as strategy-related roles, business operations and product owners).

HUB 209 - Hub Technical Operations

This course provides an overview of the Mojaloop tools, processes and operations for a Hub operator or anyone who is interested in how to build and run an operational Mojaloop Hub.

TTK 101 – Self Testing Toolkit

This course will provide you with a focused review of the basic features of the Mojaloop Testing Toolkit (TTK) and its usages.

This course begins by exploring the purpose of the Mojaloop TTK and its installation and set-up. Next, the basic features of the toolkit's user interface is explained. Finally, the capabilities and functionalities of the toolkit in a variety of scenarios is explored, including both basic and advanced use cases.
